Tempohousing shelters for refugees

Many European countries are confronted by the large numbers of refugees seeking shelter everyday. The numbers exceed the available options to offer immediate housing for the many families, arriving with no possessions.

For these urgent situations Tempohousing can supply complete and turn-key housing projects, offering shelter for many hundreds of refugees. Complete with all sanitary facilities and common areas for cooking, social gatherings and office space for the necessary guidance, these housing projects are a great relief in the current conditions. In specific cases Tempohousing also offers the option to lease the housing projects when government backing is in place. Projects can be ordered in all countries.

The system is extremely flexible, every configuration possible. Very short building time. Delivery from stock is possible for smaller quantities.

Office in Copenhagen just opened

The increasing demand in Scandinavia for fast and economic solutions for quality housing projects has recently led to opening a new office in Copenhagen. From here C.E.O Thomas Jørgensen and Sales & Project Director Aaron Dorseth and their team are preparing new projects with new products, such as the prefabricated light weight concrete home. This concrete modular home, is produced in The Netherlands and offers with a size of 3,5 x 10 meter an ideal home for students and starters. With its Scandinavian design and stylish and spacious interior, these "plug-and-play" modular home projects, can be completed in 'no time' while the total construction cost are extremely competitive.

Call our Danish office on +45 70205720 for more information or go to www.tempohousing.dk
Other building solutions such as the famous Tempohousing shipping container home, but also quick refugee shelter solutions are also available now in Scandinavia.
